Curate for Corporate Leaders

Professional Certificate Programme in
Advanced Management
IIM Kozhikode

BATCH 03

From the Director's Desk

IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights empower participants to manage and lead complex business challenges with confidence and informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to growth we have achieved in our 25-year journey of academic excellence.

At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The sheer scale, scope and potential impact that India will have on 21st century business makes us believe that this is a legitimate aspiration.

Pursuing Professional Certificate Programme in Advanced Management from IIM Kozhikode, professionals will get exposure to different managerial aspects such as operations, marketing, human resources management, strategy, finance, and economics for holistic career development. They will be able to lead digital sales management transformation and combat industry challenges to attain the organisations' goals.

Wishing you all the very best!

Prof. Debashis Chatterjee

Accelerated Growth Opportunities

“Record surge in C-suite hiring as India Inc recovers from Covid-19 pandemic impact. Executive Search firms expect close to 50-100% growth in hiring over last year and would overtake pre-Covid levels of 2019 by 20-40% this year. According to these firms, senior-level hiring can be attributed to multiple factors. The key reasons at play here are pent-up demand, enhanced investment environment, expansion and capacity augmentation plans of companies along with a pickup in domestic demand and rapid digitalisation.
